## Game rules

Shuffle the cards and deal out five to each player. Place the remaining cards face-down next to the playing surface as a draw pile. Place the top card from this pile face-up in the middle of the table.

The game starts with this card. The youngest player goes first, and then the game moves clockwise. The player whose turn it is may place a matching card at either end of the chain. A card is matching when the logos match up perfectly with each other.

You choose which of the 3 sides of the card to use for this. If you are unable to play one of your cards during your turn, you must take a card from the draw pile. If you are able to play this card, then you may go ahead and do so straight away. If not, you must keep this card, and it is the next player's turn.

The player who is the first to play all of his / her cards wins. The game is also over if it is no longer possible to play any cards once all of the cards in the stock pile have been played. In this case, the player with the fewest cards wins.
